📄 PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive, pixel-perfect web applications using **HTML5, CSS3, JavaScript, Bootstrap 5, PHP, and MySQL**. Developed 4+ real-world projects including a live healthcare booking platform with full backend integration. **Skilled in UI/UX implementation, API integration, cross-browser compatibility, and web performance optimization**. Proficient in **Git & GitHub** for version control and familiar with Agile development workflows. Passionate about crafting clean, maintainable code and delivering seamless user experiences.

📁 EXPERIENCE

At Hub Technology

Jan/2025 – Feb/2026

Frontend Web Development (On-site / Remote)

Pune, Maharashtra

- Developed 5+ **responsive** web applications using HTML5, CSS3, JavaScript, and Bootstrap 5, ensuring cross-browser compatibility across **3+ browsers**.
- Engineered dynamic backend functionalities using PHP and integrated MySQL databases with **4 core CRUD operations**.
- Implemented user authentication systems and **8+ form validations** for secure and accurate data handling.
- Designed and optimized database structures improving data retrieval efficiency by **25%**.
- Improved website performance and loading speed by **20%** through code optimization and debugging.
- Deployed and tested **3+ applications** in local server environments using XAMPP ensuring error-free deployment.

🧠 SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), Bootstrap 5, Responsive Web Design, Flexbox, CSS Animations, CSS Grid, DOM Manipulation, Cross-Browser Compatibility, Pixel-Perfect UI, UI/UX Implementation
- **Backend Development:** PHP, Node.js, REST API Integration, Server-Side Logic, Form Validation, User Authentication
- **Database:** MySQL, CRUD Operations, Database Design
- **Tools & Technologies:** Git, GitHub, VS Code, Browser Developer Tools, Postman , npm
- **Methodologies:** Agile Development, Web Performance Optimization, SEO-Friendly Development, Debugging & Troubleshooting

PROJECTS

NursingWala Home Health Care

Technologies Used :- HTML , CSS , Javascript , Bootstrap , PHP , MySQL

- Engineered a full-stack healthcare booking platform enabling users to schedule home nursing visits across **6+ medical service categories**.
- Prototyped user personas, low-fidelity wireframes, and high-fidelity mockups streamlining the appointment booking flow, reducing user steps by **30%**.
- Integrated a MySQL-backed booking system with **4 core CRUD operations**, REST API, form validation, and user authentication using PHP.
- Crafted a pixel-perfect responsive UI with Bootstrap 5 ensuring seamless experience across **3 device types** (mobile, tablet, desktop).
- Elevated client's online presence with an SEO-friendly **5-section HTML5** structure improving search visibility and navigation clarity.

Centralized E-Learning Platform (College Team Project)

Technologies Used :- HTML, CSS , Bootstrap

- Architected **12+ responsive** frontend components for a **4-member** team-based e-learning platform including dashboards, course pages, and navigation modules using HTML5, CSS3, and Bootstrap 5.
- Built **8+ client-side form validations** and interactive UI elements using JavaScript (ES6+), improving data accuracy and user experience.
- Delivered cross-browser compatibility across **3+ major browsers** and full mobile responsiveness using media queries and fluid layouts.
- Partnered with backend team to integrate frontend components with **2 REST APIs** for server-side functionalities.

Sidecup Family Golf — Frontend Practice Project

Technologies Used:- HTML5, CSS3, Bootstrap , JavaScript

- Engineered **5+ advanced CSS3** techniques including Flexbox, CSS Grid, positioning, and keyframe animations for a pixel-perfect frontend recreation.
- Developed a custom JavaScript-powered dynamic cursor effect and **10+ smooth scroll interactions** for enhanced user engagement.
- Optimized page animations and hover effects for smooth **60fps** performance across all interactions.
- Achieved full responsiveness across **3+ device sizes** using media queries and fluid layout techniques.

Vector Polymer Injection Module — Business Website

HTML5, CSS3, Bootstrap, JavaScript

- Crafted a professional responsive business website for an industrial polymer company showcasing **10+ products** using HTML5, CSS3, and Bootstrap 5.
- Structured **8+ product and service pages** with component-based design for clear information hierarchy and easy navigation.
- Launched **5+ interactive UI elements** including smooth animations and responsive navigation using JavaScript (ES6+).
- Optimized website with **10+ semantic HTML5 tags** and meta tags improving SEO and search engine visibility.

EDUCATION

Bachelor of Engineering — Information Technology [CGPA: 7.72 / 10]

Savitribai Phule Pune University, Pune

2021 – 2025

Pune , Maharashtra

- **Relevant Coursework:** Web Technologies, Operating Systems, Data Structures & Algorithms, DBMS, Computer Networks, Software Engineering.

CERTIFICATIONS / TRAINING

Full Stack Web Development (Certificate Course)

UNO Training Institute, Pune

Oct 2024 – Mar 2025
Pune , Maharashtra

- Built multiple full-stack web projects using HTML5, CSS3, JavaScript, Bootstrap, PHP, Node.js, and MySQL.
- Gained hands-on experience with REST APIs, CRUD operations, user authentication, and server-side logic.
- Practiced version control workflows using Git & GitHub for collaborative development.
- Learned fundamentals of website deployment, hosting, and performance optimization.
